

Gives General Outline of Alberta Power Situation to Kiwanis-Bd. of Trade

R. B. Barter, Managing Director of Calgary Power Company, Gives Detail as to Requirements of the Province and the Activities of the Company—Propose to Build 132,000 Volt Line from Ghost River to Wetaskiwin

The joint luncheon of the Wetaskiwin Board of Trade and the Kiwanis Club on Tuesday evening proved to be a very interesting function, as R. B. Barter, managing director of the Calgary Power Company, was present and gave a general outline of the power situation in Alberta, illustrated by very interesting lantern slides. The slides showed the different stages of development in the Calgary Power Company's system during the past couple of years. The pictures showing the flood conditions a few weeks ago were very interesting and the speaker pointed out that the dam was so well constructed that very little damage was done, although the flood was the worst experienced in many years. When completed the dam will back the water up a distance of about ten miles and this will form a nice lake near the highway between Calgary and Banff. The river has a drop of 475 feet in a distance of 22 1/2 miles and the water can be used to develop power three times in that distance. Mr. Barter said that the Company can produce all the power required in the Province of Alberta, for many years to come. In winter there is not enough water in the Bow River to run the plant and a reserve supply has been arranged to the amount of 16,000,000 K.W.

The map was also placed on the screen showing the transmission lines from the Bow river plant which extends through the province, namely, south to Warner, Milk River and Camrose, as well as to Aldersyde and Beasano and Gleichen. North of Calgary the line has been constructed as far as Ponoka and will be completed to Millet in about ten days. Another line is being built from Camrose to Wainwright, and from Camrose to Wetaskiwin, which will also be completed in about ten days. Projected lines are from Hardisty to Provost and from Macleod to Cardston and it is expected these will be completed before freeze-up.

TRIUMPH OF SNOWDEN MEETS WITH GENEROUS ACCLAIM IN EVERY SECTION OF THE PRESS

London, Aug. 23.—The triumph of Philip Snowden, British chancellor, after a grim struggle at the Hague, where he secured for Britain eighty per cent of her claims under the Young plan for war reparations, is acclaimed today in every section of the British press as the outcome of a magnificent effort carried to restore British prestige in Europe.

Occasion is taken to explain that misconceptions have arisen in the United States and in European countries based on the idea that Mr. Snowden has been making claims for Britain, far in advance of anything she is actually entitled to. He has been endeavoring only to prevent British rights being whittled down, and for the sole reason that what money Britain thus obtained she uses to hand over as reparations payments to the dominions, and to meet the \$180,000,000 yearly that she gives to the United States for borrowings for her former wartime allies.

United Church Picnic Was Big Success on Labor Day

On Monday last, Labor Day, the annual picnic of the First United Church Sunday school and congregation was held at the athletic grounds. Considering the chilly afternoon a large crowd was in attendance and the program of races was thoroughly enjoyed by the young people. After the races a sumptuous luncheon was served in the pavilion.

The winners of the races were: Boys and Girls under 4 years—1, Colin Bye; 2, Kathleen Beamish; 3, Clarence Lawson. Boys and Girls under 6 years—1, Tom Buchanan; 2, Naida Faulkner; 3, Stanley Reynolds. Boys under 8 years—1, Fred Chapell; 2, Robert George; 3, Jimmy Duhamel. Girls under 8 years—1, Jean Aspi; 2, Lona East; 3, Dorothy Duhamel. Boys under 10 years—1, Cecil Bridgeman; 2, Jack French; 3, Kenneth Holby. Girls under 10 years—1, Dorothy Dultman; 2, Beryl Lake; 3, Emily Beamish. Three-legged race for Boys 12 and under—1, Cecil Bridgeman and Ted Buchanan; 2, Billy Miller and Floyd Shantz; 3, Jimmy French and Clarence Aspi.

WOMEN'S INSTITUTE TO HOLD CONFERENCE

The Women's Institutes in the Wetaskiwin constituency will hold their annual conference on Friday, September 6, in the Community hall at Angus Ridge. It is expected that delegates from Chesterwood, Millet, Wetaskiwin, Angus Ridge and the Wetaskiwin Girls' Club will be in attendance to give reports.

The session will open at 10 a.m. with Mrs. J. A. Rodell, constituency convener, presiding. Mrs. J. P. Ferguson, director, District No. 2, Alberta Women's Institutes, will be present and address the conference.

Town Topics

Mr. Van Stockum expects to be back this week to resume his classes in music.

Mr. and Mrs. Ira White of Portland, Ore., were weekend visitors at the home of Mr. and Mrs. W. G. Dietz.

Mr. Briggs and family of North Battleford, spent a few days of the past week in town renewing acquaintances.

Mrs. B. D. Howatt arrived home on Monday, after spending several weeks vacation with friends at the coast.

Miss Coleman of the Calgary teaching staff, was a guest at the home of Mr. and Mrs. Geo. D. Wallace over the week-end.

Mr. and Mrs. Jack Beck of Livermore, California, have made a motor trip to visit Mr. and Mrs. W. Altvater of Wetaskiwin.

Major Geoffrey Baker and Mr. J. C. P. Williamson are attending a Ladies' dinner and Conference held in Edmonton on Thursday of this week.

Mr. and Mrs. Frank Turner and family returned on Friday after spending several weeks vacation with relatives in Ontario and other points in the east.

Mr. R. K. McKay and daughter Alice of Winnipeg, returned to their home on Wednesday. They were accompanied by the former's sister, Mrs. J. H. Walker of this city.

Mrs. and Mrs. A. J. Taylor and daughter, Jean, returned home last week from a holiday trip during which they visited Jasper, Vancouver and other points at the coast.

Mr. and Mrs. George Woods and family left on August 29th for their home in California. On their way they visited relatives and friends in Nebraska and South Dakota.

While returning from Ma-Me-O Beach Sunday afternoon, a car being driven by Jim Wain arrived into the ditch on account of the slippery roads, and turned over. There were three occupants in the car and fortunately nobody was injured, but the car received some damage.

A gathering of neighbors took place at the home of Mrs. P. Nelson, south of the city, on Sunday afternoon, when a very large number enjoyed a good time. The favorite game of horseshoes was indulged in for the greater part of the afternoon, and after a hearty lunch, the guests spent the remainder of the afternoon in conversation, music and games.

A very enjoyable birthday party was held at the home of Grandma Meyer of New Norway, on August 28th, on the occasion of her 75th birthday. About fifty guests enjoyed themselves at a very nice and tasty dinner. The men spent the afternoon in playing horseshoes, and the ladies visiting with Grandma. Among those present were her five children, namely, William Meyer and Mrs. J. P. Bell of New Norway, Mrs. George Woods of Ocean Park, California, George A. Meyer of Puyallup, Wash., and Mrs. Chas. Kolb of Wetaskiwin. Mrs. Meyer was the recipient of numerous lovely gifts, and her many friends left, wishing her many happy returns of the day.

ANGUS THEATRE ATTRACTION

Coming: The World Famous Winnipeg Kiddies to the Angus Theatre on Thursday, Sept. 12th. The Kiddies are now on their way home after a very successful tour of the Capital circuit and Alaska.

They appear with the permission of the Department of Education and Child Welfare Association.

A program unequally will be presented. Gorgeous costumes and special scenic equipment will be used in the production which is unique in theatrical annals.

A special picture program will also be shown on the bill. Rex, the world's greatest animal actor, will thrill you in the grand and glorious drama of the west.

This will be the greatest value in entertainment offered in a long time. A real treat for old and young and one that should not be missed. Matinee at 4:15. Evening at 8 p.m. See ad on back page for prices and program.

Weddings

CALLUM-BOWIE

A quiet wedding was performed in Immanuel Church on Thursday, August 29th, when Dorothy Grace, daughter of Mr. and Mrs. C. Bowie of Wetaskiwin, was united in marriage to Harold Callum of Wetaskiwin. Rev. P. C. Wade officiated. Mr. and Mrs. Callum will reside in Wetaskiwin.

MASON-MILLER

A quiet wedding was solemnized in Edmonton a few days ago when Adelyn Miller, youngest daughter of Mr. and Mrs. A. C. Miller of Crooked Lake, was united in marriage to Clark Mason, son of Mr. and Mrs. Ed. Mason of Wetaskiwin. The young couple spent a short honeymoon in Edmonton and will make their home in Wetaskiwin.

Obituary

OSCAR ALBIN JOHNSON

The many friends of Oscar Albin Johnson regret to learn that he passed away at the Royal Alexandra hospital, Edmonton, on Sunday last, after an illness of about six months with Bright's disease. He was aged thirty-one years, seven months and eight days. For several years he has been recognized as one of the largest and most progressive farmers of the Edgerton district.

He leaves to mourn his loss, his parents, Mr. and Mrs. A. V. Johnson of Malmo, four sisters and two brothers, and a very large circle of friends and acquaintances.

The funeral will take place on Sunday afternoon next, services being conducted at the residence at 1 p.m. by Rev. A. Wickstrom, and at the Swedish Mission Church at 2 p.m. The interment will take place in the Malmo cemetery.

ANNE PAULINE FOSTVEDT

The funeral service of the late Anne Pauline Fostvedt, who passed away on August 27th, was held at the Norwegian Lutheran Church on Friday, conducted by Rev. O. Asper. The church was packed to the doors with friends who came from far and near to pay their last tribute of respect to the departed.

The first full meeting of the W.A. will be held at the home of Mrs. P. C. Wade at the vicarage on Tuesday, September 10th, at 4 p.m. A good attendance will be appreciated by the Auxiliaries.

Rev. P. C. Wade will be in Edmonton on Thursday of this week, attending a Conference with the Clergy of the Diocese. This Conference will be visited by the Commissioners of the National Commission of the General Synod.

HAZEL DORIS GUNSKA

The sympathy of the community is extended to Mr. and Mrs. J. Gunksa in the loss of their daughter, Hazel Doris, who was taken from them by the Angel of Death a few days ago, after a short illness with pneumonia. She was aged six years and eleven months. The interment took place in the Brightview cemetery.

ARCH ELLIOTT

One of the pioneer settlers of the Yeoford district passed away at the Wetaskiwin hospital on Wednesday last in the person of Arch Elliott. He was aged sixty years. The deceased came from Indiana about twenty-three years ago and took up land in the Yeoford district, where he has since resided. He leaves two brothers, also residents in the Yeoford district. The funeral took place on Thursday, the interment being in the Wetaskiwin cemetery.

PHYLLIS BERYL LUCAS

There passed away at the Wetaskiwin hospital, Thursday, August 29th, Phyllis Beryl, only child of Mr. and Mrs. Noble Lucas, at the age of 2 years, 3 months and 24 days.

The funeral was held Saturday, Aug. 31st, services being conducted in the Church of England by Rev. P. C. Wade.

A large number of relatives and friends were present at the funeral to pay their last tribute of love.

The flowers were especially beautiful and numerous, among them being from Mother and Father, Grandma and Grandpa, George Lucas, Auntie Maud, Auntie Martha, Cousins Ina, Agnes, Algerta Harold and Raymond, Auntie Beale and Uncle Bennie, Mrs. Eggleston and Lester, Auntie Pearl, Uncle Sam, Auntie Ethel and Uncle Al, Auntie Queenie and Uncle Charlie, Auntie Uelie, Uncle Cortez and Norma, Uncle Walter and Uncle Albert, Will and Nellie and Amy, Don and Judy, George and Mary, Esther, Courtney, Mrs. Burke and Phyllis, The Old Timers' Association, the Brunner Family, Florrie and Dave, Duncan Anderson, Will, Doris and Merle Johnson, Chas. and Nellie Wieg, Mr. and Mrs. J. R. Shantz, Mr. and Mrs. J. H. Lock, Mr. and Mrs. F. Manser, Mr. Nelson and Blanche, Mr. and Mrs. J. H. Lyall, Mr. and Mrs. Lee Bussard, Mr. and Mrs. Wm. Thirk, Mr. and

BLAZE DESTROYS EDGERTON STORES LOSS IS \$37,000

Edgerton, Alta., August 29.—Believed to have started from spontaneous combustion in the sawdust house at the rear of the Parcels Meat Market, fire wiped out three Edgerton business houses shortly after 1 a.m. today with a loss of \$37,000.

The H. A. Kelly hardware store was destroyed with a loss of \$25,000, the Parcels Meat Market, owned by D. W. Parcels of Chauvin, was wiped out at an estimated loss of \$7,000, while the cafe owned by Hon. Guoy was also destroyed with a loss of approximately \$5,000.

Town Topics

Mr. Melvin Belsheim was a Calgary visitor over the week-end.

Mrs. Linke and daughter of Edmonton, have been visiting Mrs. Linke's sister, Mrs. V. Altvater of this city.

Mrs. C. Bakken and daughter, Selma, of Calgary, were visiting with relatives and friends in the city during the past week.

Rev. and Mrs. A. L. Edholt and family arrived home on Friday evening from Victoria, where they spent their summer vacation.

Miss Chandler of Edmonton, is spending a few days visiting at the home of her brother, E. C. Chandler, and renewing acquaintances in town.

Rev. D. D. McQueen, assistant vicar in the Pro-Cathedral at Calgary, was at Wetaskiwin the fore part of the week, renewing acquaintances.

Mr. and Mrs. Finley Watson and family of Wetaskiwin are spending a few days visiting Mr. Watson's cousin E. A. Toshack—Drumheller Mail.

Mr. and Mrs. O. Nelson of Camrose, Mr. and Mrs. D. Schaeffer and family of Edmonton, were visitors at the home of Mrs. P. Nelson over the week-end.

Mr. George Meyer of Puyallup, Wash., arrived on August 27th to be present at the celebration of his mother's birthday. He returned to his home on Saturday afternoon.

The first full meeting of the W.A. will be held at the home of Mrs. P. C. Wade at the vicarage on Tuesday, September 10th, at 4 p.m. A good attendance will be appreciated by the Auxiliaries.

Wheat Cutting Well Under Way Throughout the West

Winnipeg, Aug. 31.—Wheat cutting is very far advanced in the three prairie provinces and over 60 per cent of the coarse grain crop is cut, according to the sixth general crop report of the Manitoba Free Press, published this morning. Hot and dry weather in all sections of the grain belt is proving favorable for harvest and threshing operations, but the land is much too dry for fall plowing.

A shortage of labor is reported by the Free Press to exist at only a few points in Saskatchewan and is not deemed serious. The use of combines has extended to every part of the west, the machines being in general use at more than 200 points from which the paper has reports.

In Manitoba virtually all what is cut, and only one point reported wheat grading tough. Very light frost damage is reported from stem rust has appeared, but caused little alarm in coming to its late appearance. Only nine points report feed shortages, while a number of others say they have sufficient if winter is not prolonged. The general crop for the province is turning out better than expected.

In Saskatchewan wheat is about 70 per cent out and threshing is in progress. Combines are reported being used at 190 points. Sawly damage is fairly serious at 23 points. Genuine feed shortage is reported from 34 points. A very general complaint is made of shortage of oats for feed.

Alberta—Seventy per cent of the province's wheat has been cut and considerable threshing has been done. Grades are running generally from one northern to three northern, but mostly two and three. Twenty points indicate sufficient feed for stock for winter due to short feed crops and dry pastures and hay meadows. Weather is ideal for harvesting.

Advertisements in the paper that circulates all over the district thoroughly.

Statement of Assessment to Be Prepared Showing Reason Tax Rate Increase

Recommendations Placed Before City Council Regarding Proposed Agreement With Calgary Power Company Laid Over Until This Evening, When Whole Proposition Will Be Given Further Consideration—Many Minor Matters are Disposed of

A regular meeting of the City Council was held Tuesday evening, with all members in attendance.

After the adoption of the minutes of last meeting, J. M. Jackson addressed Council re the purchase of a lot on Railway Street West, adjoining the feed mill, on which to erect carpenter shop. Referred to Lands Committee with power to act.

Mrs. Leschert asked Council to change road from east to west side of her residence. Referred to Public Works Committee to bring in a report.

Carl Sehn addressed Council, stating that his daughter had fallen on sidewalk and broke her arm. He wanted Council to pay the doctor's account of \$51.00. Referred to the representative of insurance company.

Chas. Knoll appealed against business assessment, as he was not doing business in the city. Assessment was written off.

Alex. Knox wrote re maintenance of Mrs. Van Huesen, stating she was ill and might become a charge on the city. Referred to city solicitor for recommendation.

Letters from the Old Age Pensions Department, re applications for benefits under the Act, were read. These were considered, and the information desired will be forwarded to the Department. The application of Mrs. Josephine Schmitz was approved.

The Canadian City and Town Company wrote re condition of sidewalk near Banner Store. Letter tabled until representative arrives in city shortly.

The Regal Oil Distributors wrote re assessment of property, claiming it was too high, and asking for information. An explanation will be given.

The Wetaskiwin Furniture Exchange protested against assessment on store on Railway Street East. It was agreed that assessment be not changed.

The Permanent Construction Co. wrote re using part of street fronting Sawfords Stores Ltd. property during construction of building. This was granted.

W. H. Odell, acting City Solicitor, wrote re agreement with the Calgary Power Company, making recommendations in connection with same. Laid on table until by-law is considered.

J. T. Ross, deputy minister of education, forwarded an order authorizing an assessment of 10 mills on lands outside the city of Wetaskiwin for school purposes. Letter filed.

M. E. Klemke wrote stating he was not doing any business this year and was not liable for business tax. Assessment was written off.

Building permits were issued to Dr. Hoare, Long & Mier, E. A. Reynolds, and Mrs. Blackwell.

The following accounts were passed for payment: General, \$169.50; electric light, \$104.25; waterworks, \$13.34; supplementary, \$156.00.

The Chief of Police submitted his report for August, which was received and filed.

Ald. Cook reported verbally that J. H. Dultman offered \$450 for building he occupied and three lots. Referred to the City Engineer.

PLACEMENT OF 67 FAMILIES DURING AUGUST

Keeping up its program for this province, the Canada Colonization association placed 67 families during August, according to W. R. Dick, superintendent of land settlement.

There were 29 families permanently placed on 5,000 acres while the purchase price of property involved in these placements was \$68,000.

The new settlers were of a good type and were distributed over areas in various parts of the province, including Onoway, Clyde, Busby, Lacombe, Barrehead, Ponoka and in southern Alberta.

WESTERN AIR MAIL LOOK TO BE OPENED OCTOBER FIRST

Ottawa, Sept. 3.—(Reorganization of 1,250 miles of air mail service on the prairies is expected about Oct. 1, linking Winnipeg with Camrose, Alberta, and thereby saving a day's time between the two points. Chief Superintendent Harrington, of the Dominion air mail service, is now in the west making arrangements with the Western Canada Airways Company of Winnipeg, while Hon. P. J. Veniot, postmaster general, plans to go to Winnipeg to officiate at the formal opening of the service.

Two routes are planned for daily service. It was learned from the postmaster general's department this morning. The one from Winnipeg via Regina, Moose Jaw, Calgary and Camrose, and the other from Regina via Saskatoon and North Battleford to Edmonton.

It was indicated, the air mail service will likely be established across the Rockies to the Pacific coast, giving practically a Dominion-wide air mail service from Rimouski in the Gulf of St. Lawrence and the arrival of ships from Europe.

The service between Winnipeg and Camrose, which at about 850 miles, will make it possible for a plane to take mail from a train going east or west at either point and then transfer the mail to the previous day's train at the other end of the line, thereby saving a full day between the two points.

Wheat Cutting Well Under Way Throughout the West

Winnipeg, Aug. 31.—Wheat cutting is very far advanced in the three prairie provinces and over 60 per cent of the coarse grain crop is cut, according to the sixth general crop report of the Manitoba Free Press, published this morning. Twenty points indicate sufficient feed for stock for winter due to short feed crops and dry pastures and hay meadows. Weather is ideal for harvesting.

PAIRIES BUSY THRESHING CROPS

Winnipeg, Aug. 30.—The rumble of grain wagons on their way to market and the hum of threshing outfits are drowning out all other noises in the prairie provinces. From a few scattered cardinals, grain marketing leaped to 2,500,000 bushels on Wednesday and in a short time the movement is expected to reach its peak.

gotten now, who thought that method was a shame, and as he mopped his steaming brow, he planned a better thrashing game. In dreams he saw a big machine with shining gears and teeth of steel, all painted brilliant red and green, that took a wheat stack at a meal. A million men will travel on the paths their fathers used to tread, and have no vision of the dawn that may be breaking just ahead. A million farmers swung the scythe, year after year, their crops to win; they started in the morning blithe, and in the gloaming were all in. They went to bed with every man that was invented in their day; their weariness kept them awake, they were too tired to kneel and pray. They thought that farmers always must swing heavy scythes to get the grain, their whisks are full of burrs and dust, their bodies full of grief and pain. But one, whose name's forgotten now, beheld the harvest, wide and green, as he leaned against a cow, he figured out a great machine. And now a reaper cuts the straw and binds it into handsome sheaves, and feeds them to the thrasher's maw, as round and round the field it weaves. There always is some man of sense, inclined to think, inclined to dream, inclined to sit upon a fence and plan some epoch making scheme

COMMUNICATION

(We do not necessarily endorse the sentiments advanced by this or any other correspondent under this heading.—Ed.)

To the Editor of The Times:

With your kind permission I will make a few comments on recent correspondence in your columns re Alberta's big problem (the Liquor Traffic). Evidently Mr. J. H. Hodson, Nanantam Farm, Wetaskiwin, has been rubbed the wrong way by some items appearing in a recent issue of your very splendid weekly paper, written by the W.C.T.U.

I have both articles before me and cannot find anything objectionable in the W.C.T.U. notes that should be inferred as "defaming our country or our people." In the W.C.T.U. notes the only mention made of Alberta is that our liquor sales in 1924 amounted to \$7,178,446 and in 1928 to \$12,109,548. Surely, sir, stating facts, that can be proved by the Liquor Board annual report, is not defaming our province.

Mr. Hodson is evidently concerned about the good name of Canada, and says that Canada is setting an example to the world in moral and social progress. Mr. Editor, what organizations are responsible for this example? Is it the Liquor Interests and the Temperance League, which forces Mr. Hodson to evidently prefer to clean plan? Or is it the W.C.T.U., the Y. M. C. A., the Y. W. C. A. and other branches of the Christian Church?

In dealing with the Liquor problem in Alberta and Canada I always prefer to concern myself with home facts and figures. The local reader is more interested in a local setting than some apparently green field far away. But as Mr. Hodson refers to the two remaining prohibition countries, Finland and the United States, in which he claims both drunkenness and crime is increasing to an alarming extent, I must also mention them. Surely Mr. Hodson is not deliberately making a misleading statement? I would prefer to believe he is not in touch with the actual situation in these countries.

Henry Ford, employing, as he does, two hundred thousand men, ought to be an authority on conditions in the United States, and Mr. Ford in the September issue of the Pictorial Review just published, says:

"Prohibition is effective with 99 per cent of our population. The remaining 1 per cent seems little, but in a great country like ours it is a great many people. This 1 per cent is made up largely of the wealthy class, the criminal class and the abandoned class."

"Two years ago," he continues, "drinks were served everywhere, all sorts and kinds of drinks. But conditions are now 50 or 60 per cent better. Foreign embassies in the United States, acutely sensitive to the proprieties of the situation, have, in some cases, ceased public use of their liquor stocks. This is a very significant indication of the way the wind is blowing."

Mr. Hodson must surely be muddled in his facts taken as he says, from the Finland government analysis of its 1928 crime record. He gives the total arrests as 168,217. Of these he credits 128,000 to prohibition, which must be classified as some breach of the liquor law. The remaining 45,000 he states are mainly assault cases ar-

ising from drunken fights. He attributes the total arrests as being caused by liquor. Did Finland have no other crime during 1928? Finland had an election in July. The outcome showed that the dry sentiment in this prohibition country is growing. In the old Parliament two-thirds of the members were dry. In the new Parliament elected three-fourths of all the lawgivers are dry.

The London Spectator ran a series of articles last fall on Prohibition in Finland, by a special representative, and we would think that after a personal visit he would know something of the situation, when he says:

"I discussed the question of Prohibition with many Finnish acquaintances, from the Prime Minister downwards, and the general opinion was that there was little likelihood of repealing it as only ten per cent of the members of Parliament are against it. A leading banker told me that prohibition undoubtedly contributed to the prosperity of the working class. The Government officials are waging an energetic war against smuggling and that a satisfactory enforcement of Prohibition is beginning to be effective."

Drunkenness Decreasing in U.S.

Mr. Hodson has no figures to prove his statement about increased drunkenness in the United States. Our official information is just the opposite, and according to recent editorials in the Saturday Evening Post, Aug. 10, 1929, which Mr. Hodson should procure and read, prohibition is making good in the United States. One paragraph of this editorial reads as follows:

"Business did not pave the way because of emotionalism, of fanaticism, but as the astute, sagacious, far-sighted, profitable, businesslike thing to do for all concerned. It looked like a good financial bargain, and it has proved to be such. We do not know exactly what proportion of American prosperity is due to prohibition, but we seriously doubt whether any honest observer denies it to be a major factor."

Canada Importing too much Alcohol

There is no disputing the statement made that "Canada is the only country of importance in the world where the drink bill is increasing." Our own Government records prove it. Practically every other country in the world is showing a steady decrease. In 1926 Canada imported 25 million dollars worth of liquor; in 1928, 48 million dollars worth. Liquor is the largest item of Canada's importation bill and Canada spends on British whiskey, over four million dollars more than on all British metals and metal products combined. The above are wholesale prices.

In 1925 the total manufacture of liquor in Canada, not including beer, was 5,792,863 proof gallons, and in 1926 it had increased to 7,316,320 proof gallons and recent years show similar increases.

Where Mr. Hodson gets his "authoritative" information to show that under the Alberta Liquor Act conditions have improved more than in any other province or under any other act, that while drunkenness and crime has increased over the Dominion as a whole, that here in Alberta there has been a gratifying decrease on both counts in

Palpitation of Heart Sinking Spells Couldn't Do Housework

Mrs. R. O. Anderson, Dunnville, Ont., writes: "I am naturally a strong healthy person, but after my fifth child was born, and the time had arrived for me to take up the reins of household management, I found my strength very unequal to the duties which devolved upon me as my heart would palpitate, and I would have such strange sensations of sinking."

"My husband got me a box of

and by the time I had finished it I had recovered. I did not even need the second box."

"We have also used them after having 'The Flu' and found them to be very beneficial."

Milburn's Heart and Nerve Pills have been on the market for the past 35 years and during that time have proved their beneficial properties to those having heart and nerve troubles.

Price, 50 cents a box at all druggists or send for a booklet on request of money by the T. Milburn Co., Ltd., Toronto, Ont.

General Secretary, Alberta Prohibition Association, 714 Tegler Building, Edmonton, Alta.

WEIGHT AS A MEASURE OF HEALTH

Anyone who has read about health will have noticed that a considerable amount of importance is attached to the question of weight. The doctor's office, the health centre, the school, are all furnished with weight scales, and part of the medical examination consists in the weighing of the person who is being examined.

The fact that a child weighs a certain number of pounds does not enable the doctor to classify that child as healthy or unhealthy. If, however, the child is considerably under or over to average weight of children of the same age and height, this fact suggests that there may be something wrong which requires investigation. The important point about the weight of a child is that there should be a regular gain in weight. This means that every child should be weighed regularly in order that it may be learned whether or not there is a steady gain. Too much importance is not to be placed upon the difference between two consecutive weighings, and in order to have weights which may fairly be compared, it is necessary that they be made at the same time each day and with the same amount of clothing. When there is less of weight or when weight remains stationary, it means that there is something wrong with the child's manner of living.

The reason may be insufficient or improper food, it may be the eating of candy between meals, which prevents

buyer, Mr. James Hanna, of New York
state, who became interested two
years ago through the efforts of the
agricultural department of the Cana-
dian National Railways, has since the
fall of 1927 purchased approximately
fifty carloads of grades and purebreds.
The Holstein Breeder's association re-
ports that in the first six months of
this year, more than 2,000 head of
purebred Holstein cattle have been
exported to the United States, making
a grand total of about 4,000 head since
July 1, 1928. Holstein breeders in 16
counties in Ontario and one county in
Quebec, maintain sales managers who
have been responsible for promoting a
large proportion of the export busi-
ness to the U.S. These sales managers
work entirely on commission and are
effective in bringing buyer and seller
together. Victoria county in Ontario
recently sent a carload of Holsteins to
Joliet, Ill., which brought an average
of \$350 apiece.

A large number of purebred Jersey
cattle have also gone to the U.S. Dur-
ing June two important shipments of
Jerseys were made from the Bull &
Son herd at Brampton, Ontario, to San
Antonio, Texas. The purchase price for
15 cows in this shipment was \$20,000.
The bull which went with the ship-
ment brought \$12,000.

Ayrshire cattle are also in heavy
demand and several carloads of Ayr-
shire have gone from eastern Ontario
and the south-western part of Quebec
to the eastern States.

TOO MANY LAWS

Governor Byrd of Virginia, has
sensed the growing popular irritation
in the United States against so much
law making and he offers the novel
suggestion that every Legislature
should hold a session for the sole pur-
pose of repealing unnecessary laws.
Any legislation passed would be to re-
duce the number of statutes.

The craze for enacting laws is not
confined to legislative bodies in the
States. The same tendency is ap-
parent in our own provinces. Hundreds
of new laws, federal and provincial,
are added to the Statute books each
year and not one citizen in ten thou-
sand pretends to keep abreast of the
times in this regard. The general re-
sult is confusion and annoyance, and
according to experienced observers in
the States much of the growing disre-
gard for law there is due to the multi-
plicity of laws.

The Anglo-Saxon is by institution
and training a law-abiding citizen, but
he is opposed to what may be regarded
as unnecessary legal restrictions.
There are too many petty curtail-
ments of individual liberty.

The American Bar Association and
several bar associations have gone on
record as in favor of reform in the
matter of legislation. As long as legis-
lators, many of them inexperienced,
are convinced the only way they can
impress their constituents with their
importance is by sponsoring legisla-
tion there will be little chance for im-
provement.

It is safe to say that few citizens
of Calgary have any real conception of
the large number of federal, provin-
cial and civic enactments to which
they are subject. Fortunately for their
peace of mind no serious attempt is
made to enforce them all. Public of-
ficials and the police enforce only
those which are the best known and
most important.—Calgary Herald.

and plan some epoch making scheme

COMMUNICATION

(We do not necessarily endorse the
sentiments advanced by this or any
other correspondent under this head-
ing.—Ed.)

To the Editor of the Times:

Dear Sir:
With your kind permission I will
make a few comments on recent cor-
respondence in your columns re Al-
berta's big problem (the Liquor Traf-
fic). Evidently Mr. J. H. Hodson, Nan-
tapan Farm, Wetaskiwin, has been
rubbed the wrong way by some items
appearing in a recent issue of your
very splendid weekly paper, written
by the W.C.T.U.

I have both articles before me and
I cannot find anything objectionable
in the W.C.T.U. notes that should be
inferred as "defaming our country or
our people." In the W.C.T.U. notes
the only mention made of Alberta is
that our liquor sales in 1924 amounted
to \$7,178,446 and in 1928 to \$12,109,
848. Surely, sir, stating facts, that can
be proved by the Liquor Board annual
report, is not defaming our province.

Mr. Hodson is evidently concerned
about the good name of Canada, and
says that Canada is setting an exam-
ple to the world in moral and social
progress. Mr. Editor, what organiza-
tions are responsible for this example?
Is it the Liquor Interests and the
Moderation League, which forces Mr.
Hodson so devoutly prefers to cham-
pion? Or is it the W.C.T.U., the Y. M.
C. A., the Y. W. C. A. and other
branches of the Christian Church?

In dealing with the Liquor problem
in Alberta and Canada I always pre-
fer to concern myself with home facts
and figures. The local reader is more
interested in a local setting than some
apparently green field far away. But
as Mr. Hodson refers to the two re-
markable prohibition countries, Fin-
land and the United States, in which
he claims both drunkenness and crime
is increasing to an alarming extent, I
must also mention them. Surely Mr.
Hodson is not deliberately making a
misleading statement? I would prefer
to believe he is not in touch with the
actual situation in these countries.

Henry Ford, employing, as he does,
two hundred thousand men, ought to
be an authority on conditions in the
United States, and Mr. Ford in the
September issue of the Pictorial Re-
view just published, says:

"Prohibition is effective with 99 per
cent of our population. The remain-
ing 1 per cent seems little, but in a
great country like ours it is a great
many people. This 1 per cent is made
up largely of the wealthy class, the
criminal class and the abandoned
class."

"Two years ago," he continues,
"drinks were served everywhere, all
sorts and kinds of drinks. But condi-
tions are now 50 or 60 per cent bet-
ter. Foreign embassies in the United
States, acutely sensitive to the pro-
prieties of the situation, have, in some
cases, ceased to serve public use of
liquor stocks. This is a very signi-
cant indication of the way the wind is
blowing."

Mr. Hodson must surely be muddled
in his facts taken, as he says, from
the Finland government analysis of
its 1928 crime record. He gives the
total arrests as 168,217. Of these he
credits 123,000 to prohibition, which
must be classified as some breach of
the liquor law. The remaining 45,000
he states are mainly assault cases ar-

ising from drunken fights. He attrib-
utes the total arrests as being caused
by liquor. Did Finland have no other
crime during 1928? Finland had an
election in July. The outcome showed
that the dry sentiment in this probi-
tion country is growing. In the old
Parliament two-thirds of the members
were dry. In the new Parliament elec-
ted three-fourths of all the lawgivers
are dry.

The London Spectator ran a series
of articles last fall on Prohibition in
Finland, by a special representative,
and we would think that after a per-
sonal visit he would know something
of the situation, when he says:

"I discussed the question of Probi-
tion with many Finnish acquaint-
ances, from the Prime Minister down-
wards, and the general opinion was
that there was little likelihood of re-
pealing it as only ten per cent of the
members of Parliament are against it.
A leading banker told me that probi-
tion undoubtedly contributed to the
prosperity of the working class. The
Government officials are waging an
energetic war against smuggling and
that a satisfactory enforcement of
Prohibition is beginning to be effec-
tive."

Drunkenness Decreasing in U.S.

Mr. Hodson has no figures to prove
his statement about increased drunk-
enness in the United States. Our of-
ficial information is just the opposite,
and according to recent editorials in
the Saturday Evening Post, Aug. 10,
1929, which Mr. Hodson should pro-
cure and read, prohibition is making
good in the United States. One para-
graph of this editorial read as follows:

"Business did not pave the way be-
cause of emotionalism, or fanaticism,
but as the astute, sagacious, far-sight-
ed, profitable, businesslike thing to do
for all concerned. It looked like a good
financial bargain, and it has proved to
be such. We do not know exactly what
proportion of American prosperity is
due to prohibition, but we seriously
doubt whether any honest observer
denies it to be a major factor."

Canada importing too much Alcohol
There is no disputing the statement
made that "Canada is the only coun-
try of importance in the world where
the drink bill is increasing." Our own
Government records prove it. Practi-
cally every other country in the world
is showing a steady decrease. In 1928
Canada imported 25 million dollars
worth of liquor; in 1928, 48 million
dollars worth. Liquor is the largest
item of Canada's importation bill and
Canada spends on British whiskey,
over four million dollars more than on
all British metals and metal products
combined. The above are wholesale
prices.

In 1925 the total manufacture of
"quor in Canada, not including beer,
was 5,792,853 proof gallons, and in
1926 it had increased to 7,315,320
proof gallons and recent years show
similar increases.

Where Mr. Hodson gets his "auth-
entic" information to show that under
the Alberta Liquor Act conditions
have improved more than in any other
province or under any other act, that
while drunkenness and crime has in-
creased over the Dominion as a whole,
that here in Alberta there has been a
gratifying decrease on both counts in

Palpitation of Heart
Sinking Spells
Couldn't Do
Housework

Mrs. R. O. Anderson, Dunnville, Ont.,
writes—"I am, naturally, a strong,
healthy fifty-five year old woman. I
was born, and the time had arrived for
me to take up the reins of household
management, and my strength very
unequal to the duties which devolved
upon me as my heart would palpitate,
and I would have such strange sensations
of sinking."

"My husband got me a box of

and by the time I had finished it I had
recovered; I did not even need the
second box.

"We have also used them after having
"The Flu" and found them to be very
beneficial."

Milburn's Heart and Nerve Pills have
been on the market for the past 35 years
and during that time have proved their
beneficial properties to those having
heart and nerve troubles.

bition Association, 714 Tegler Build-
ing, Edmonton, Alta.

WEIGHT AS A MEASURE
OF HEALTH

Anyone who has read about health
will have noticed that a considerable
amount of importance is attached to
the question of weight. The doctor's
office, the health centre, the school,
are all furnished with weight scales,
and part of the medical examination
consists in the weighing of the person
who is being examined.

The fact that a child weighs a cer-
tain number of pounds does not en-
able the doctor to classify that child
as healthy or unhealthy. If, however,
the child is considerably under or over
to average weight of children of the
same age and height, this fact sug-
gests that there may be something
wrong which requires investigation.
The important point about the weight
of a child is that there should be a
regular gain in weight. This means
that every child should be weighed
regularly in order that it may be
learned whether or not there is a
steady gain. Too much importance is
not to be placed upon the difference
between two consecutive weighings,
and in order to have weights which
may fairly be compared, it is neces-
sary that they be made at the same
time each day and with the same
amount of clothing. When there is
loss of weight or when weight re-
mains stationary, it means that there
is something wrong with the child's
manner of living.

The reason may be insufficient or
improper food, it may be the eating of
candy between meals, which prevents

the child from being hungry at meal
time, but the most common cause has
nothing to do with food; it is due to
lack of rest, late bed-time, an un-
comfortable bed, or an unventilated
bedroom.

There are many points which affect
the weight of the child, among which
are included racial or family peculiar-
ities, but the fact remains that the
child who is free from physical de-
fects and who lives a hygienic life,
gains regularly in weight. For these
reasons, although not expecting too
much from it, it is a wise thing for
parents to have their child weighed
regularly and also to see that the
school which he attends has a weight
scale. In this manner, it is possible
to keep a check on the health pro-
gress of their child.

Questions, concerning health, ad-
dressed to the Canadian Medical As-
sociation, 184 College Street, Toronto,
will be answered personally by letter.

WATER FROM MIQUELON AT
CAMROSE SEPTEMBER 7

Saturday, September 7th, is the
date set by the Calgary Power com-
pany for turning the water supply
from Miquelon Lake into the channel
which will conduct it into the present
reservoir formed by the C.P.R. dam.
The work started the latter part of
July has been steadily proceeding ac-
cording to schedule. The H. G. Mac-
donald company, limited, are the con-
tractors and Mr. Montgomery is the
resident engineer of the Calgary Pow-
er company.

It may again be noted that the pre-
sent reservoir will be flushed clean be-
fore the flow from Miquelon Lake be-
gins. The flushing process will be carried

out by means of a twelve inch sluice
pipe and valves. The waste pipe will
extend under the new dam from the
lowest part of the "bowl" in the bot-
tom of the reservoir.

As previously stated the reservoir
will be built to hold seventy-five mil-
lion gallons of water and will make
available about 185,000 gallons daily.
The requirements of the town at pre-
sent are approximately 60,000 gallons
per day.—Canadian.

Trade with the merchants who ad-
vertise in this paper.

12 MILLION

can't
be wrong

Kellogg's Corn Flakes must be crisper, more delicious — or 12,000,000 people would not daily prefer them to all other corn flakes. Kellogg originated corn flakes and nobody has ever been able to equal that Kellogg wonder flavor.

Enjoy Kellogg's Corn Flakes for lunch and dinner as well as breakfast. Fine for the children's evening meal. So easy to digest. Serve with milk or cream—fruits or honey added.

It pays to insist on Kellogg's—the original Corn Flakes. Look for the red-and-green package. At all grocers. Served by hotels, restaurants. On dining-cars. Made by Kellogg in London, Ontario. Always oven-fresh.

Kellogg's
CORN
FLAKES

The Strange Cargo of The Little Muldoon

It was young Skofield who discovered the belated side show waiting on the pier at Wakefield for the Muldoon—the little steamer that made a meagre living for four men carrying freight up and down the bay. As Skofield sat at the bow of the boat, the anxious manager hailed him and asked whether the Muldoon could be chartered to carry the properties of the side show to Pinkham's Cove, where the big tent was already pitched.

Young Skofield summoned old Captain Murdock, who scratched his head reflectively and remembered that between the shingles amidships and potatoes forward there was a large vacant space that might hold even the mountainous pile of damage belonging to the side show.

A bargain was struck, and the trunks, the tent and the other paraphernalia were shoved forward over the shingles and stowed in the empty space the manager and his men boarded the trolley car, and the little Muldoon put out to sea. But the first place of baggage—a long, peculiarly shaped chest with holes bored in each end, containing something that was very heavy and that slipped strangely from side to side—had been pushed carelessly from the shingle pile; it had fallen with a bang on the keelson of the Muldoon and irreparable damage had been done.

Three hours later, when the Muldoon was rounding Fishtail Head in the teeth of a lively tide rip, Captain Muldoon, with a puzzled expression, leaned over the open hatch. The side

show and chug of the engine, the thrashing of the paddle wheels, and the whirr and hiss of the seas that beat against the Muldoon's broad sides continued with unbroken regularity. He could hear the swish of bilges "ater in the depths of the hold and the creak of straining timbers; but besides those familiar sounds was another, insignificant to be sure, and probably of little import, yet because of its strangeness, and above all because Captain Murdock could in no way account for it, ominous out of all proportion to its volume.

"Skofield!" Captain Murdock shouted. "Lay forward and put your ear to this 'ere hatch!"

The youngest of the Muldoon's crew came sauntering up to the deck. "Yes, sir," he said, grinning at his wrinkled superior.

Captain Murdock scratched his head impressively. "Put your ear to the hatch and tell me what you hear, Harry," he commanded. "Your ear is young and had ought to hear sharper'n mine."

Young Skofield got down on hands and knees. For a moment he heard only the wash of the sea and the throb of the engine; then his expression changed sharply, and crouching on the deck he listened with a sudden intensity that confirmed the old man in his opinion that something unaccountable was going on below.

"What d'ye hear, Harry?" the skipper whispered hoarsely.

"A mighty queer noise!"

"Well," said the old man, "tain't 'aters, that's sure."

"What?"

"Tain't 'aters," he repeated, "and tain't Seth Granby's shingles; they ain't neither of them making no such cur's noise, and if taint them, must be it's the circus, 'cause we ain't got no other cargo."

Captain Murdock's logic admitted no contradiction. The entire cargo of the little Muldoon was divided into those three parts; forty bags of potatoes shipped from Wakefield to John Ash's store at Peck's Point, fifty bundles of shingles billed to Seth Granby at Duckhill Island, and the bales and boxes belonging to the side show; and neither cedar shingles nor carefully stacked bags bulging with new potatoes would produce of their own accord a muffled, insistent thump, thump, thump!

Captain Murdock looked at the fleecy clouds overhead; he looked down at the gray water under the rail. Dickinson, the mate, was at the wheel; Crabbe, the engineer, was wielding a coal shovel at his post of duty. Obviously, Captain Murdock and Harry Skofield must solve the mystery unless it was to go unsolved, and Captain Murdock had no desire to venture into the dark and evil-smelling hold of his little craft.

"Harry," said he, "s'posin' you take your little flashlight and crawl in and see what's wrong?"

Slipping over the edge, Skofield dropped on the shingles; then he leaned over and with the aid of his electric torch, peered earnestly into the recesses of the hold; but he could distinguish only the even piles of shingles and indistinctly the knobby bags of potatoes beyond them.

"I can't make out a thing," he declared.

"Don't git out! Stay where ye be!" the skipper shouted. When Harry took hold of the side of the hatch and prepared to climb out. "Heard that!"

While Captain Murdock was speaking the muffled thumps had been rumbling in a monotonous undertone, and had culminated in a loud crash. The shingles under the hatch settled, creaking into new positions, and all was still.

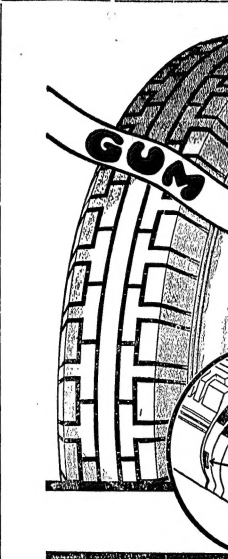

"Maybe she's sprung a leak! Maybe we're sinking!" Captain Murdock gasped. "Git in there quick, Harry there's a good boy, and see what in 'arnation's gone wrong! I'm feared the Muldoon's bottom's bustin' in on her."

Skofield was a little alarmed. "Well, if that's so, I don't see what I can do to—"

"Git!" Captain Murdock's ire brooked no insubordination. Ducking under the deck and holding his flashlight in front of him, Skofield crawled forward on hands and knees into the darkness. He was puzzled by the noises and a little frightened by their sudden stopping, but nothing seemed to be wrong. The shingles, the trunks and bales, and the bags of potatoes were just as before, yet it was possible that the Muldoon was taking in water. He found a crevice between the potato sacks and the trunks and lowered himself into it. There was no room to manoeuvre the light; so he began reaching down into the narrow crevice that he encountered. Slowly his fingers crept along the damp planks, but they met no flush of water.

Skofield was on the point of straightening up, reassured, when close at hand and much louder now he heard again that thump! thump! Something moved; the cargo in his immediate vicinity was shaken by a vast upheaval; a trunk above him—it must have been poorly balanced—fell over against the potatoes, and neatly covered the open end of the pocket into which he had lowered himself. Under that mass of luggage was something alive and free—something that was forcing its way little by little up through the entire cargo of the little Muldoon.

The trunk that had toppled across the top of the pocket in which young Skofield was crouching was settling lower and lower. He felt one corner against his back. It pressed harder and harder, until it had forced him down flat on the potato sacks; he could hardly breathe. Unable to

move the weight of the trunk because of its cramped position, and realizing that any shifting of the cargo might send the bales and boxes down upon him, he shouted for help.

"I ca-a-a't he-a-r ye!" came Captain Murdock's high-pitched reply. The captain's ears were far from keen.

"Help!"

"Ye-ee-y? Wha-a-a't's that?"

"He-elp!"

"Th' ain't no help in her innards; must be hay from last trip." The thumping had changed to a scratching, rustling noise. The boxes creaked, and the tent was pushed to one side. Skofield felt a hard, cool object touching one hand. There was another bump, a renewed creaking as the boxes changed position; then a creature that breathed hoarsely and quickly nosed his arm.

In a frenzy of fear Skofield turned his flashlight on it, and what he saw filled his heart with terror. A long, scaly reptile was working its way up through the cargo; its claws were scratching at the folds of the tent; its breath came in quick gasps as it squirmed forward. Skofield stared at it, horrified and saw its small, twinkling eyes come into view and its long jaws open, revealing great rows of teeth. It was a huge alligator.

Enraged by the pressure of the cargo and by the bright light, the creature, glaring at the boy with its little eyes, struggled forward inch by inch. Thrusting out both hands, Skofield gripped the dilated nostrils and tried vainly to push back the ugly head. At the same moment the cargo settled again, and the corner of the trunk cut into his back and pinned him helplessly in the path of the beast.

Although the alligator was not yet near enough to seize him with its shear-like jaws, Skofield could reach its head with his extended arms.

Finding that he could not keep it from advancing, he tried to cut off its wind; but although he gripped its nostrils with all the strength of his hands, the only effect seemed to be to enrage the creature still further, for with glaring eyes and clicking teeth it squirmed closer and closer to his face.

Skofield realized that he could not prevent the big beast from crawling out where it could reach him.

"Help!" he yelled once more; but he got no response, and knew that he must rely upon himself alone, and he must act quick. The nose of the ugly reptile was nuzzling his forehead.

For a moment he shut his eyes; then out of the blackness came an idea. Dropping the flashlight, he began to fumble at his belt buckle; but at first, because of his cramped position, he could not unfasten it. He tugged at it frantically and at last succeeded in getting it loose. With trembling fingers he pulled it off. Then, working his hands forward and feeling his way by sense of touch, he began to twist the belt round the grim snout of the alligator. As if divining his purpose, the big

reptile snapped its jaws and moved its head from side to side; but Skofield hung on, and finally pulled the belt tight and buckled it.

After a long fumbling hunt he recovered the flashlight and looked into the wicked little eyes of the brute. Its jaws were locked and it could not open its mouth. The thrashing tail was confined by the weight of many trunks and bales.

By the help of the flashlight young Skofield studied the situation. Getting himself together, he gave a sudden squirm and twisted sideways. The corner of the trunk dragged across his back, tearing the skin, but he felt himself suddenly freed from the terrible pressure. Drawing a deep breath, he wormed his way backward. His feet were kicking back and forth in the open air when he was terrified to feel a firm grip on his ankles.

"Hi! Quit your hollerin'! It's me that's got hold of ye! I'll pull ye out!" It was Captain Murdock's voice.

"I want to know!" the captain ejaculated when he heard the story, "I want to know!" And, taking young Skofield to the cabin, he applied witch hazel to his lacerated back.

When the manager of the side show came on board at Pinkham's Cove, the old man addressed him so violently that he did not even protest at Captain Murdock's bill.

"I'm glad, though, that Alexander wasn't hurt," the manager said, as he helped drag the alligator on the pier. "He's a kind of a pet of mine."

"Pet?" gasped Captain Murdock.

"Pet? Jeeshahpatt!"

But young Skofield jumped to the pier. "Hi!" he yelled. "Give me back my belt! He's got it round his jaw."

Gas on Stomach Is Dangerous

Gas, pain, bloating and sourness after eating almost always means "too much acid" in the stomach. The condition is dangerous. Acid irritates the stomach lining and may lead to Ulcers. Gas forms and presses against the heart. The stomach needs an alkaline. Bisurated Magnesia—powder or tablets—is the ideal method of getting safe, quick, lasting relief. It neutralizes the excess acid, sweetens the stomach, breaks up the gas, stops the pain and sourness. Food digests naturally. It must give prompt relief or money back! Buy drugists everywhere who sell it on this iron clad guarantee.

TOWN TOPICS

S. Murray of Edmonton, was transacting business and renewing acquaintances in town this week.

C. H. Russell, who spent the month of August with relatives in Exeter, Ont., returned home on Monday.

Miss Elsie Pritchard went to Ponoka the first of the week, where she commences a nurse's training course in the hospital.

Mr. and Mrs. W. H. Odell and family motored to Hanna and spent the weekend and the holiday with the former's brother.

Miss E. E. Redden, who has been visiting her father and other relatives in Ontario for the past few weeks, returned home on Sunday.

Jack Hurrell, who spent a few days of the past week with his parents at the Wetaskiwin hotel, returned to his home in Calgary on Tuesday.

Mr. and Mrs. J. R. E. Coburn and daughter visited with friends at Carbon, Alta., during the past week. They travelled by motor and returned home Tuesday evening.

Mr. and Mrs. A. E. Aboussafy and Emeline and George Aboussafy returned home a few days ago from their motor trip to Seattle and other places at the coast.

Mr. and Mrs. Frank Aboussafy who are returning to Wetaskiwin from Saskatoon, are taking up their residence in W. C. Coupland's house in the southern part of the city.

Mr. and Mrs. Richard Bellhorn visited at Calgary, Turner Valley and fields and the Prince of Wales ranch during the past week, and report having had a very enjoyable holiday.

Labor Day passed off quietly in the city. Several golfers attended the tournament in Camrose, while the attraction in town was the picnic under the auspices of the First United Church.

The first frost of the season came here on Tuesday evening, when the government thermometer registered one degree of frost. It did not do any damage as the grain will all be cut this week.

Mr. and Mrs. W. C. Coupland of Los Angeles, Cal., arrived in town a few days ago to renew acquaintances. They have resided in California for about eight years and enjoy it very much. They are travelling by motor and it will be a couple of weeks before they start on their return journey.

Mr. and Mrs. J. Kulak who spent the summer vacation with relatives at Stony Plain, returned to Wetaskiwin the end of the week, and Mr. Kulak has resumed his duties as teacher of Grade eight in the Alexandra school.

The work of surface graveling the Calgary-Edmonton highway is progressing in this community and the road between Wetaskiwin and Ponoka has been completed. The crews are now working north of Wetaskiwin.

The Edmonton Citadel Band and Cadet Corps visited Wetaskiwin over the week-end. Their band selections played on the street were enjoyed by the citizens. A special demonstration was held in the S.A. hall on Monday evening.

Good progress is being made with the excavation for the new Safeway Stores Limited. The building will be one storey brick, 35x50 feet, with a ten foot basement, 35x40 ft. The work will be rushed to completion as quickly as possible.

Mr. and Mrs. H. E. Chalmers and family, who left about three weeks ago on a motor trip to Spokane and other points in the U.S., returned home on Friday last. They had a delightful outing, but found the roads quite rough in some places.

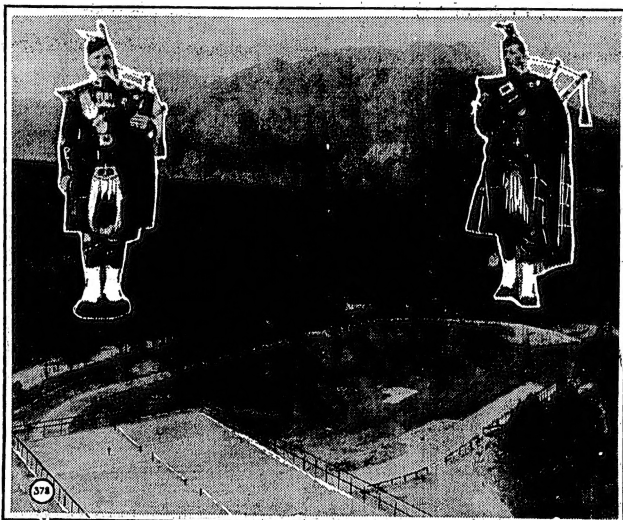

E. R. Rasmussen left Monday afternoon to attend the Kiwanis Western Canada District convention which is being held at Medicine Hat. He is chairman of the Agricultural Committee of the district, and will represent the Wetaskiwin Club at the convention.

DON'T READ THIS

If your subscription is paid. If it is, you can tell by examining the date on the label. This date shows when your subscription was or will be due. Subscriptions paid during September were very few indeed, but we understand the cause—the grain is not yet harvested and money is very tight. But October should be better, and we do not wish to harass anyone with a little bill like a \$2.00 subscription. We believe most people, as soon as they can spare the money will be glad to pay this small item. We appreciate the difficulties of this season's financing, and have endeavored to say as little about subscriptions as possible. But we expect our delinquent subscribers to "come through" just as soon as they can.

ATHLETES AND SCOTS AT BANFF

The newly re-conditioned track and athletic field at Banff where the Dominion Track and Field Championships were held on Labor Day. It is a speedy cinder, brick-surfaced, twenty-foot wide, quarter mile track with new grandstand and infield. Coincidentally with the sports was the Highland Gathering and Scottish Musical Festival. Lay-out shows the track and two of the judges of piping and dancing at the festival. They are (left) Pipe-Major Wm. Ferguson, of North Bay, and Pipe-Sergeant Neil Sutherland, of Regina.

WORK COMMENCES ON LACOMBE SEWER

Lacombe, Aug. 30. — Work on the sewer began yesterday and crowds have been watching with great interest the huge ditching machine that digs a fourteen foot hole faster than men can lay pipes behind it. Some delay has been caused by the water that has been struck at that depth. The laying of the water mains will be made at the same time, on the streets where they are to be placed. Ten miles of pipe will be laid and the work is expected to be finished before freeze-up.

INDIANS RAVAGED BY TUBERCULOSIS

Ottawa, Ont., Aug. 28. — The native Indian race is being ravaged by tuberculosis. Nearly ten Indians died from that disease in 1928 for every white man. Tuberculosis was responsible for 730 deaths per 100,000 Indians in Canada. The Dominion bureau of statistics indicate the figure of 81.4 is a slight improvement over the preceding year.

STORES ENTERED AT LACOMBE AND BLACKFALDS

Last week, Norman Campbell's store at Lacombe and J. A. Martin's store at Blackfalds, were broken into. The thieves at Lacombe got out with \$300 worth of clothing, but the night policeman caught eight of them, and gave chase. They dropped the clothing and fled, and the policeman did not get them. At Blackfalds, they got a bunch of tobacco, candy, flashlights, groceries, etc. They entered by the back window. \$18 in cash was taken from the cash register.

CARDSTON POWER PLAN APPROVED

Cardston, Sept. 3.—The Cardston town council, at a special session on Thursday evening with the Calgary Power Co. officials, Messrs. Anderson, Hogg and Fraser, gave the proposed agreement for the supply of electric energy to the town in bulk, by the Calgary Power company, its first reading and officially gave the sanction of the council to the proposal.

Obituary

(Continued from Page 1)

Mrs. Austin Rix, Mr. and Mrs. J. H. Line, Wetaskiwin Creamery Staff. The pallbearers were Esther Ertland, Ina Standefer, Elinor Lucas and Isabella Chapman. The interment took place in the family plot in the Wetaskiwin Cemetery.

Phyllis leaves to mourn her loss a sorrowing mother and father, and a large number of relatives and friends.

There is no death; An angel form Sweeps o'er the earth With silent tread And bears our best Loved things away; And then we call Them dead.

There is no death. What seems so is transition. This life of mortal breath Is but the suburb of the life elysian Whose portals we Call Death.

"DON'T HAVE TO" MERCHANT DOESN'T GET VERY FAR The bird who says "I don't have to" Advertise for everyone knows who I am, where I am, and what I sell," will never make any more than a living. The average shopper does not care who a merchant is, where he is, or what he sells. But, he does care about information as to cost of what he wants without wasting steps. So, Advertise.—The Life of the Town, Bellows Falls, Vt.

ALBERTA'S RETURN NATURAL RESOURCES

Ottawa, Sept. 4.—Preliminary arrangements are now being made by Hon. Chas. Stewart, minister of the interior, looking to the introduction of enabling bills at the next session of the dominion parliament for the return of the natural resources to Alberta, Manitoba and the Peace River blocks in British Columbia.

Hon. Mr. Stewart said Tuesday that they were very hopeful of having the resources return question satisfactorily settled for the three provinces before the close of another year. The minister met Hon. D. L. McKenzie, minister of forests and mines in the Bracken government in Manitoba, here last week. The terms for the return of Manitoba's resources, the minister said, will be on much the same terms as those proposed for Alberta at the last session. The Manitoba legislature is being called before the new year Mr. Stewart said, and his department hopes to have arrangements with Manitoba completed by that date.

Premier S. F. Timmins, of British Columbia, is due in Ottawa early next week, Mr. Stewart said, to discuss the return of the Peace River blocks in his province, while Premier J. E. Brownlee of Alberta will be in Ottawa later in the month on a similar mission.

JUVENILE IMMIGRATION BIG FACTOR COLONIZATION WORK

Montreal, Sept. 3.—"The migration of British juveniles for farms in Canada, is one of the most promising features of the immigration situation at the present time," stated R. M. Pym, superintendent in Britain of juvenile immigration for the Colonization Department of the Canadian National Railways, who arrived in Montreal on the White Star liner Lauricent for the annual conference of National Railway Colonization department officials.

Mr. Pym arrived with the final party of British juveniles for the season, numbering some 83 boys, and commenting on the amazing development of juvenile immigration from the British Isles, Mr. Pym stated that although this season a total of 1,181 boys had been brought out under the auspices of the Canadian National Railways. This was an increase of 134 per cent over the season of 1928, and when it was considered that 1928 season showed an increase of 84 per cent over 1927, it could be realized to what a great extent juvenile immigration had become a factor in the general situation.

ALBERTA WATER SURVEY MOOTED, SAYS BROWNLEE

Edmonton, Aug. 29.—The government has been considering a survey of the water power situation within the boundaries of this province for some little time, declared Premier J. E. Brownlee on Wednesday when asked if any action would be taken on the clause in the report of A. E. G. Christie, professor of mechanical engineering at John Hopkins University, Baltimore, which was submitted to the City Council on Monday, to the effect that a government survey be undertaken. "It must be borne in mind," he said, "that there has been much survey work done by the Dominion water power branch, and much information on the power question has been collected and placed on the department's files."

APARTMENT HOUSE, WINNIPEG, BECOMES FLAMING DEATH TRAP

Winnipeg, Sept. 3.—The blazing inferno into which early Sunday morning the interior of the Midway apartment building was changed, and in which nine persons were killed, and 19 injured, in the worst fire Winnipeg had experienced in its history, held more terrors to inmates of the block than did a long drop to the ground through the windows. Almost without exception, residents of the ill-fated structure, some living in third and fourth storey suites, chose the treacherous leap into darkness, rather than remain in the fire-ridden interior, where death was certain.

Many residents completed their breath-taking jumps without injury, but the long list of injured contains

the names of several who dropped from second, third, fourth and fifth at all times for inspection by its storey windows, and who were dangerously hurt.

The Times' subscription list is open at all times for inspection by its advertisers. Remember this when you wish to advertise.

MONTANA WHEAT SOLD IN CANADA

Lethbridge, Aug. 30.—Tariff barriers have no terrors for the farmers of northern Montana who are marketing their wheat at Coultas, Alberta, rather than at Sweet Grass, Montana. The higher prices for wheat prevailing in Canada furnished the lure, and it is estimated that 100,000 bushels of Montana wheat will be sold to elevators at Coultas this season.

The American farmers pay the Canadian government 12 cents a bushel duty which means that Canada will gain around \$12,000 this season from American wheat importations. Despite the duty the American farmers at the prevailing price of wheat in Canada are netting 14 cents a bushel over the American price.

Disease Germs Haven't a Chance

Absorbine, Jr., spells death to disease germs and infection. As a gargle and mouthwash, this safe, dependable antiseptic germicide kills germs on sight in the mouth and throat. Applied to sores, wounds, cuts, bruises and sprains it not only relieves the pain and soreness, but also heals quickly and prevents inflammation.

Always keep Absorbine, Jr., in your medicine cabinet. It is Nature's "Vine Astringent"—non-greasy and stainless. \$1.25 at your druggists. Booklet free. 10

PRAIRIE CHICKEN SHOOTING SEASON TWO WEEKS ONLY

Several changes in the game law regulations are announced in the current issue of the Alberta Gazette. A short open season on prairie chicken and partridge is declared effective north of the Red Deer river from October 1st to 15th inclusive.

Deer hunting is prohibited in the eastern part of the province, roughly bounded by the C.P.R. railway line from Macleod to Edmonton on the west and the North Saskatchewan river on the north.

A shorter season for hunting Hungarian partridges has been ordered running from October 1st to November 15th inclusive. It formerly covered the whole month of November.

MEMORIAL HALL CEREMONY HELD

Ponoka, Sept. 3.—On Thursday a large number of people gathered at the new Elks' Memorial Hall, for the public dedication of the hall, and the unveiling of a memorial. The service of dedication was conducted by officers of the Ponoka B.P.O.E., and music for the occasion was provided by the Elks' band.

The service was a most impressive one. Following the singing of "Stand Up, Stand Up, for Jesus," Prayer was offered by Rev. S. J. Waterman, after which Rev. P. C. Wade read the scripture lesson. The formal presentation of the plaque by J. Paterson, president of the Legion Branch, No. 96, Ponoka and its unveiling by His Honor Lieutenant-Governor Dr. W. G. Egbert, followed.

The Last Post and the Reveille were then sounded, and the plaque was formally accepted by His Worship Mayor P. A. McKeivley. After wreaths had been deposited by representative organizations of town and district the hymn "Onward Christian Soldiers" was sung, followed by the benediction by the Rev. W. Eakle.

RAIN GENERAL IN WEST

Winnipeg, Sept. 3.—Fairly heavy rains were general throughout the three prairie provinces yesterday, the weather bureau reported here today. Snow fell in Alberta around Banff and Cardston, and there were sharp frosts at a number of Alberta points. Harvesting operations will be halted at a few points for a day or so, owing to the rains, which will be very beneficial at many places in that they will aid fall ploughing. No damage of any account is likely to result from the frosts, as the crop in southern Alberta is nearly all cut.

Judge: What is your name?
Prisoner: Joshua, your honor.
Judge: Oh, Joshua! Are you the Joshua who made the sun stand still?
Prisoner: No, your honor—I'm the Joshua who made the moon shine.

M.D. OF BIGSTONE, NO. 459

By-Law No. 31

Public notice is hereby given that there has been introduced in the Council of the Municipality of Bigstone 459 a by-law of which the following is a short synopsis:—

Under the authority and subject to the provisions of the Domestic Animals Act (Municipalities) the Council of the Municipality of Bigstone 459 enacts as follows:—

"Domestic Animals shall be prohibited from running at large during the entire year in the following area: West half of Twn. 47, range 25. All Twn. 47, range 26 and Sections 1-12-13-24-25 and 36 in Twn. 47, range 27, all West of the fourth Meridian."

Copies of the above may be seen at the office of the secretary-treasurer, the post office of Patience, Alta., 25 throughout the above area; and further, that unless within thirty days from the publication of this notice at least eight resident ratepayers of the area affected petition the Council to submit such by-law to the vote of the resident electors in the above area, the Council will proceed to pass the same.

T. S. STEEDMAN,
Secretary-Treasurer.

Neighborhood NEWS

HILLSIDE

Miss Beth Howes left on Saturday for Gwynne, to take up teaching duties in Roseland school.

Miss Barbara Marr left on Monday for Camrose, where she will attend Normal.

The Misses Lolla and Kathleen Marr have returned to Wetaskiwin and Millat to attend High School.

Miss Pritchard of Winnipeg, is spending a couple of weeks with her cousin, Mrs. E. R. Hoskins.

Messrs. L. W. Marr and E. R. Hoskins were business visitors to Edmonton last Tuesday.

The September meeting of the U. P. W. A. has been postponed from the 5th to the 12th at the home of Mrs. H. G. Young.

MACLEOD VOTES POWER ADOPTION

Macleod, Sept. 6.—Voting on the hydro electric bylaw Tuesday was carried by a large majority. The connection will be made November 1, 1929.

300 MILES OF HIGHWAY WILL BE COMPLETED

By freeze-up time the Alberta government will have completed the gravelling of 300 miles of highway during the present year, according to figures released on Saturday by officials of the public works department. The province now has 2,000 miles of main highway and 10,000 miles of district highways.

In regard to the maintenance costs of gravel roads the government is carrying out extensive experiments with new types of surfacing in order to keep down to a minimum such maintenance.

Much progress has been made during the season in the use of asphaltic oil on the highways, with a view to conserving material and making a smoother surface.

An idea of the increased motor car traffic over provincial roads can be obtained by scanning figures. In 1925 a census revealed that 350 cars a day travelled over the Calgary-Banff highway, whereas this year a check-up has shown that 1,200 cars are passing over it each day.

One of the greatest difficulties encountered by the government is in the gravelling of roads. The cost of transporting a cubic yard of gravel a distance of 40 miles from the gravel pits has been computed at \$15.00.

The highway program for the season is practically completed, although in some sections gangs will be working until winter sets in.

NEWSPAPER LAWS

Excerpts from Newspaper Law, printed for the benefit of any reader who may have mistaken ideas regarding same:

1. A postmaster is required to give notice by letter (returning the paper does not answer the law) if the subscriber does not take the paper out of the post office and state the reason for its not being taken. Any neglect to do so makes the postmaster responsible to the publisher for payment.

2. If any person orders his paper discontinued he must pay all arrears or the publisher may continue to send it until payment is made and collect the whole amount whether the paper is taken from the office or not. There can be no legal discontinuance until payment is made.

3. Any person who takes a paper from the post office, whether directed to his name or another, or whether he subscribes or not, is responsible for payment.

4. If a subscriber orders his paper stopped at a certain time and the publisher continues to send it, the subscriber is bound to pay for it if he takes it out of the post office. This follows the principle that a man must pay for what he uses.

THE PRINTER'S DREAM

Last evening I was walking with a printer old and grey. When he told me of a dream he'd had, On a by-gone Christmas day. While snoozing in his easy-chair, A strange vision came to view— And he saw an angel enter, Dressed in garments white and new. Said the angel: "I'm from heaven, The Lord just sent me down, To bring you up to glory. And put on your golden crown. You've been a friend to everyone, And worked hard, night and day. You've supported many thousands, And from few rebuffed your aid. So we want you up in glory. For you have labored hard; And the Good Lord, is preparing Your eternal, just reward." Then the angel and the printer Started up towards Heaven's gate. But when passing close to Hades, The angel murmured, "Wait! 'Tis a place I wish to show you; 'Tis the hottest place in Hell, Where the men who never paid you In torment forever dwell." And, behold, the printer saw there His old patrons by the score; And grabbing up a chair and fan He yelled, "I want nothing more." He desired to sit and watch them, As they snatched their bread and butter For his eyes would rest on debtors. No matter what way they turned, Then the angel said, "Come, printer, There are Pearly Gates to see." But the printer only muttered, "This is Heaven enough for me."

First Hints of the New Fall Fashions

Early Showing of the New Fall Coats

Sophistication in both fabric and line is characteristic of the new Fall Coats that put in their smart appearance here. Materials of a new elegance are combined with flattering furs of luscious colors, wrapping around the figure in a gracefully feminine manner and possessing the style details belonging only to these exclusive models which we selected at the wholesale Fashion Promenade at Seattle.

For those preferring flares, which are so popular, an endless range awaits your choice in the season's richest tones for Autumn wear.

For Back to School Week

At this season mothers find a world of satisfaction in buying clothing of style and quality and other essentials in preparing children to answer the first call of the school bell—at less than usual good value prices.

Our Girls' and Boys' departments are fitted with smart Togs for the children.

BOYS
Suits

SALADA has the finest flavour in the world and it costs only one-third of a cent a cup

"SALADA" TEA

'Fresh from the gardens'

PEACHES PLUS

(By Barbara B. Brooks)

At this season one need look no further than the fruit stand for inspiration in planning the day's meals. There quantities of rosy-cheeked peaches meet the eye and immediately the housewife thinks of at least a half a dozen ways in which this versatile fruit may be prepared and served. For breakfast, either fresh or stewed, with ready-to-eat cereals; as a base for luncheon salad; combined with melon in the dinner cocktail or made into a delicious dessert, this fruit meets with universal favor.

To make a delicious salad, arrange halves of large peaches, hollow sides up on salad plates, covered with lettuce or endive. Chop hearts of celery, almonds and mix with cream cheese. Fill cavity in the peach with the mixture. Cover with another half peach (to resemble a whole peach). Spread over with mayonnaise, and over this a rather soft cranberry jelly. Sprinkle with parsley.

Peach-Stuffed Cantaloupe Cocktail
2 cantaloupes, 2 cups peeled sliced peaches, 2 tablespoons sugar, 1 table-spoon lemon juice, whipped cream. "Chill and halve the cantaloupes, remove the seeds and fill the cavities with the peaches, freshly sliced and blended with the sugar and lemon juice.

Peaches in Meringue Nests
6 whites of eggs, 2 cups sugar, 1 teaspoon vanilla, 1 teaspoon vinegar. Beat the egg whites to a stiff dry froth, add the sugar a little at a time and beat. Add the vanilla and vinegar. Press the mixture through a pastry tube to shape the "nests." Bake in a very slow oven (40 minutes or longer will be required). Put half a ripe peach in each nest, dust it with pow-

Washes, Carries Coal, Woman Gains 18 Pounds

"I wash, iron and carry coal and don't get tired since taking Vinol. Also, I have gained 18 pounds."—Mrs. S. Cortese.

Vinol is a delicious compound of cod liver peptone, iron, etc. Nervous, easily tired, anemic people are surprised how Vinol gives new pep, sound sleep and a BIG appetite. The very FIRST bottle often adds several pounds weight to thin children or adults. Tastes delicious. Cooke Drug Company.

Picked Her Out
Two very nice little girls had a quarrel one day. "Anyhow," said one to the other, "when you are adopted child, 'your parents are not real'." Whereupon the other little girl retorted: "I don't care, my papa and mamma picked me out. Yours had to take you just as you came."

HIGHER PRICED CANADIAN HOGS

"We think that the price of hogs will be at least two cents per pound above those of last winter," declared A. A. Gainer, manager of Gainers' Limited, in speaking of the market outlook for the fall. "That is, there should be a change in the United States duty to affect the situation. According to reports, production on the American side is down ten per cent from last season, which will likely keep their market high."

"With high wheat prices in Canada, corn is likely to be high in United States, which would tend, in our opinion, to prevent American production getting back to last year's level for another 12 or 18 months."

Mr. Gainer pointed out that the American market supply and demand had an influence on the Alberta hog market, as United States often desired to import more when production was low. Recently there had been some Canadian hogs sold in American cities with good results. Not so far as much of the American product, it brought a premium and should lead to more business.

The improvement in the type of bacon hogs raised in western Canada will gradually have its influence on the foreign demand for the Canadian product, also on the British demand.—Edmonton Journal.

Here and There

331
Honorable George, aged ten, and Honorable John, aged 9, sons of Canada's ranching peer, Lord Rodney and descendant of the British Admirals, recently travelled 4,000 miles from Port Saskatchewan, Alta., to England, to enter a public school in the Old Country. They took the long journey unaccompanied, travelling on Canadian Pacific lines and by S.S. Montclair. C. P. R. officials looked after them on the long trip.

332
Hon. L. C. M. S. Amery, secretary for the Dominions in the British administration, who arrived in Canada on the Express of Australia recently travelled straight across the Dominion by Trans-Canada Limited, crack Canadian Pacific flyer, for Banff and Lake Louise whence he reached his objective and named a 10,000-foot peak which he will climb.

Miss Georgia Englehard, daughter of a New York lawyer, is busy scaling peaks and establishing climbing records around Lake Louise. She climbed six peaks up to 12,000 feet in height around Lake O'Hara in one week. In addition to these exploits she has made a three weeks pack train trip.

Adding to an imposing list of winnings gained at leading exhibitions over the prairie circuit earlier in the season, the champion Holstein herd of the Canadian Pacific Railway supply at Strathmore Park gathered 15 firsts, five seconds, five thirds at the Vancouver Fair, made a clean sweep in the bull classes with junior and reserve senior champions in the female classes and in group classes won first for exhibitors, first for young herd, first for group of cows, second in breeders herd and second in get of sire.

Judges of piping and dancing at the forthcoming Banff Highland Gathering and the music festival to be held August 30, September 2 have been announced. They are Colonel Alexander Fraser, Donald E. MacPherson, Murdoch McLeod, George Murray, all of Toronto; William Ferguson, of North Bay; Neil Subertson, of Regina; and Alexander Hoyle of Medicine Hat. Coincident with the Festival, the Dominion Field and Forest championships will be decided at Banff Labor Day.

Output of creamery butter in Saskatchewan for the first six months of the year is exactly 46% greater than for the similar period in 1928, according to a report of the dairy branch of the provincial department of Agriculture. In the first half of 1929 it was \$128,044, as against \$125,349 pounds in the first half of 1928.

The Canadian Pacific Railway will be represented at Fall Exhibitions in Eastern Canada this year at Toronto, Quebec, Sherbrooke, Saint John and Fredericton by models of the system's scenic, hotel, oriental and general details of the company's travel, express and telegraph activities. There will be a special building devoted to C. P. R. matters at the Toronto Exhibition, while activities dealing with the whole of the country will be shown at other cities. A number of special trains will be run to these exhibitions.

"I want to buy a pair of shoes for my little girl."

"Yes, mam. Right this way, French kid."

"Is should say not. She is my only daughter."

Her Little Boy Was Very Ill With Summer Complaint
Mrs. Ray Fisher, Lebel, Sask., writes: "For some time past, my little boy was suffering from summer complaint. He got so bad there began to be traces of blood in his stool, and anything he ate would not stay on his stomach very long. He became so weak he could not stand up. A neighbor recommended."

Dr. Fowles' Wild Strawberry
"Discouraged and in despair, I sent for a bottle, not expecting any more benefit than from the other medicines I had used, but to my surprise, I noticed a change after he had taken a few doses, and before the bottle was half used he was the same happy, healthy boy he was before he took sick." Put up only by The T. Milburn Co., Ltd., Toronto, Ont.

"Now," she asked, "is there any man in the audience who would let his wife be slandered and say nothing? If so, stand up."

A meek little man rose.

The lecturer glared at him. "Do you mean to say that you would let your wife be slandered?"

"Oh, no, sorry," he apologized. "I thought you said slaughtered."

How to Play BRIDGE

Series 1928-29 by Wynne Ferguson
Author of "PRACTICAL BRIDGE"

ARTICLE No. 29

A correspondent has just written as follows: "You say that the exception to the rule of the informative double occurs when the first hand has a no trump, doubles two of any suit bid by an opponent, either second or fourth hand. That such a double should be interpreted as a business double and not as an informative double. What is your reason for this exception?"

The reason for this exception are very definite. First, the fear of such a double for business prevents fourth hand from bidding a weak suit merely to show the lead. You will be surprised how the threat of a business double will shut out such bids. Second, an informative double after a no trump bid is rarely of game-going value. That is, the bid in answer to the informative double is strong enough to score game.

If smart opponents know that the no trump bidder doubles informatively, they will bid their suits with impunity, hoping to force opponents to a suit bid that cannot score game. The fact that informative doubles rarely score game and business doubles frequently produce large penalties is the deciding factor. But by opponent without hearing from partner are largely guess work and frequently go wrong, and, when they do, produce larger penalties than higher adverse bids that are bid up gradually.

The same correspondent gave the following example and asked for comment: "Down in North Carolina last winter as first hand I bid a no trump, second hand bid two diamonds, and my partner (third hand) doubled. I construed that as a business double. It was so played, and we lost. My partner meant it as an informative double. We had arguments every morning and nobody could make a conclusive argument that satisfied everybody. I made the following argument, and I would if it were correct, said that there were two reasons why this convention of the informative double in such a case was useless."

EYES AND HEALTH

"And he will never see the flowers, nor the young lambs jumping in the fields, nor the birds when they sing, and he can't work on the farm! Oh, my boy! my boy!"

A blind baby—what a tragedy in the lives of parents when the dread verdict is pronounced! To the child who lives in perpetual night, the realization of all he has lost is happily withheld in its entirety. He has never seen.

To the individual who has once seen and enjoyed the wonders and beauties of this world, blindness is a deprivation of half the incentive to live.

"A million dollars to anyone who will restore my sight," once said a prominent business man who had become blind. But it was too late. No one could restore the vision that was lost. This shows how valuable to us is our eyesight and how careful we should be to keep our eyes in good condition.

The eyes are connected with other parts of the body. The case of many eye troubles is not in the eye itself, but comes from other diseases. On the other hand, poor eyesight may cause illness in other parts of the body. Often when the eye trouble is corrected, the health improves.

Frequently if a child is backward in school, or if he does not stand or sit straight, it may be because his eyes are causing the trouble. Children as well as adults may have bent heads due to eye-strain. An eye specialist should be seen. If eye trouble is found and proper glasses worn, the headaches disappear and the general health improves.

Keeping the sight is a most important thing. All children before going to school, should have a complete physical examination, special care being given to testing of the eyes. Glasses should be provided if necessary, so that the child starts school free of a serious handicap.

TO A HORSE

O horse, you are a wonderful thing. No horns to honk, no bells to ring, no license buying every year, with plates to screw on front and rear.

No spurs to miss, no gears to strip; you start yourself, no clutch to stomp; no gas hills mounting every day to stand the joys of life away. Your inner tubes are all O.K., and thank the Lord, they stay that way.

Your spark plugs never miss or fuses,ers, Edmonton, on Wednesday.

your motor never makes us cuss. Your frame is good for many a mile, your body never changes style, your wants are few and easily met—you've something on the auto yet!

A road patrol was established at Red Deer on Saturday by the A. P. Police, and the officers stopped approximately 2,000 cars in seven hours and found that on the average 90 per cent of the drivers stopped had not signed and filled out their driving licenses, while many more had left them at home. Twenty-two convictions were reported at A.P. headquarters, Edmonton, on Wednesday.

No score, rubber game. 2 dealt and bid one diamond. A passed, Y bid one spade and B passed. This pass by B was very clever. The bidding indicated that his opponents held the better cards and that it would be better to conceal the strength of his hand and await developments.

Z now bid two clubs. A passed and Y bid two diamonds. B then felt that he could safely take a chance, for his first pass had undoubtedly deceived his opponents as to the strength of his hand and from this point on they probably would underestimate it. B, therefore, bid two hearts.

Z bid three diamonds and A bid three hearts. This bid by A was probably one of four cards only or it would have been bid on the first round. As A had four hearts, however, and only two outside trumps, he could safely raise his partner's bid. Y went to four diamonds and B went to five hearts. B bid four hearts, a doubtful bid except that he had four hearts and a good chance of making his bid.

and, therefore, make his bid of diamonds a sure trick.

Z doubled four hearts, a perfectly sound double, in view of his own ace and Y's bidding of spades and diamonds. All passed and Z opened the ace of diamonds as B had depended on then the ace. How should B play the trick of the hand from this point on? He has one club and four diamonds. Solution is in the next article.

have been bid on the first round. As A had four hearts, however, and only two outside trumps, he could safely raise his partner's bid. Y went to four diamonds and B went to five hearts. B bid four hearts, a doubtful bid except that he had four hearts and a good chance of making his bid.

have been bid on the first round. As A had four hearts, however, and only two outside trumps, he could safely raise his partner's bid. Y went to four diamonds and B went to five hearts. B bid four hearts, a doubtful bid except that he had four hearts and a good chance of making his bid.

and, therefore, make his bid of diamonds a sure trick.

Z doubled four hearts, a perfectly sound double, in view of his own ace and Y's bidding of spades and diamonds. All passed and Z opened the ace of diamonds as B had depended on then the ace. How should B play the trick of the hand from this point on? He has one club and four diamonds. Solution is in the next article.

***Get your Photo Prints with the border at Cooke Drug Store.

The Times asks its readers to make the local news columns their own, to the extent of contributing social and personal items which are of interest. If you have friends visiting you, there is no nicer compliment you can pay your guests than to take the trouble to see that their names are mentioned in your local newspaper. Call at or phone The Times—our number is 27—or send the item by mail.

Another Firm
Out of
Business---

Just one of the news items which are appearing in papers quite too often these days throughout the Dominion. And what is the reason. There is only one, and that is lack of loyalty to home institutions and the lure of the flashing publicity of the large city establishments. Many citizens, while earning their wages and salaries in one place, never the less send a large proportion of this money out of the community for questionable bargains, thus depriving such community of that much necessary working capital.

Business Men
Do the Same

They have local firms who are able and ready to supply them with all their requirements, yet for the most trivial reason or excuse they will consent to extend this patronage to outside firms, thus helping to build up distant cities at the expense of their home town. They seem to forget that this money so sent out might otherwise have been largely returned to them by those with whom they should have left this business. Therefore, when in need of printed matter of any kind, whether farmer, business man or professional man, always extend first consideration to

SCOUT NOTES

Please notice: P.L.'s and P.L. 2nds will meet for Court of Honour on Saturday, Sept. 7th, at 10 a.m. in the Parish hall. Dress: Full uniform with staves.

The first regular Troop meeting will be held Monday, Sept. 9th, at 6:30 p.m. sharp. Dress: Full uniform with staves. Bring mug for cocoa.

Your Troop Leader, R. Paton, is expected home on Saturday.

All boys 12 years old and over, or boys who will be 12 by Oct. 1st, contemplating joining the Scouts, are invited to attend this meeting.

SCOUTMASTER

IN MEMORIAM

In Loving Memory of my Husband, Harry Higginson, who gave his life for his Country, Sept. 2nd, 1918. Time may wipe out many things, But this it wipes out never, The memory of those happy days When we were both together. However long my life may last, Whatever lands I view, Whatever joys or grief be mine, I will always think of you.

Inserted by Wife.

CARD OF THANKS

The undersigned wish through the columns of The Times, to sincerely thank their neighbors and friends for the expressions of sympathy and assistance extended to them during their recent sad bereavement. They also desire to express their appreciation of the many beautiful floral tributes at the time of the demise as well as for the beautiful flowers sent from time to time, during the illness of the late Anne Fostredt.

Mrs. Fostredt, Thorlief and Valborg.

CARD OF THANKS

Mr. and Mrs. Noble Lucas wish to thank all those who kindly assisted them in the time of their bereavement and also those who sent flowers. They especially thank Esther Britland for singing at the funeral.

Traffic Cop: Come on. What's the matter with you?
Truck Driver: I'm well, thanks, but my engine's dead.

SHORT and SNAPPY

The secret of the success of our Want Ads. is that they are short and snappy. People like a plain business story told in a few words and if they want anything they refer to the place where they will find it with the least trouble, viz., the Classified Want Ads. In your business represented there.

THE MOTORIST'S PRAYER

Teach us to drive through life without skidding into other people's business. Preserve our brake lining, that we may stop before we go too far. Help us to hear the knocks in our own motors and close our ears to the clashing of other people's gears. Keep alcohol in our radiators and out of our stomachs. Absolve us from the mania of trying to pass the other automobile on a narrow road. Open our eyes to the traffic signs and keep our feet on the brakes.

IN MEMORIAM

In loving memory of my dear husband, T. P. Higginson and son, Harry. Keep them for Thine own, dear Lord. But ever let them be, Messengers of love Between our aching hearts and Thee.

WIFE & MOTHER.

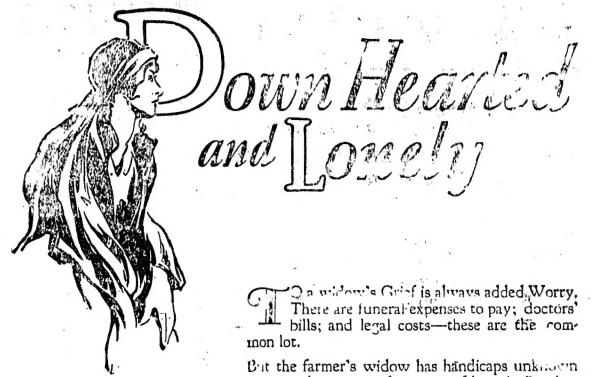

CORRECTION

In the report of the Standing Field Crop Competition in last week's issue, the address of E. Kaiser, who won first place with Banner oats, should be Lone Ridge, instead of Gwynne.

LIVELY'S
3 Doors West of P. O.

Down Hearted
and Lonely

There are funeral expenses to pay; doctors' bills; and legal costs—these are the common lot.

But the farmer's widow has handicaps unknown to even the most unfortunate of her city sisters. For the seed is unown; or the crop unharvested—and that means hiring help. And there is the interest on the mortgage—and little to meet it with. And there are implements to buy; stock to purchase; seed to obtain—

But it is the wrong season, and if she moved to town, for what task is she fitted and where could she go? No! Her whole hope of comfort and independence for herself and her children is on the farm—if only there be ready money to meet the immediate need.

And that is exactly what life assurance provides. Here is what a Sun Life of Canada policy assures: A man of 35, by payment of a modest premium yearly (decreased every year by dividends on the current scale starting at over \$65 the second year) can assure that his widow or children receive \$5,000 in cash at his death and, in addition, a minimum income of \$50 a month for five years while they gain experience and re-adjust themselves in the surroundings they know and love.

The Sun Life provides a policy to meet every need. Consult our representative in your district. It entails no obligation.

SUN LIFE ASSURANCE COMPANY
OF CANADA

HEAD OFFICE - MONTREAL

PRICE CAME HIGH

The American actress, Miss Vivienne Osborne, is responsible for this story. It concerns a clergyman in one of the southern states who married a colored couple.

"How much Ah owes you, parson?" the bridegroom asked at the end of the ceremony.

"Oh," said the minister, "pay me whatever it's worth to you." The young fellow looked his bride over from head to foot with adoring eyes. Then he turned to the clergyman.

"You've ruined me for life, parson," he said; "You snub has!"

LET PEOPLE KNOW

Reader—if you find The Times bright and interesting, remember that you can make it even more attractive if you mail or telephone the editor all the personal items you can think of. Have your visitors at your home? Are your neighbors entertaining guests? Have any members of your family gone away on a trip? Are your friends out of town? Do you know of new residents coming here to settle? Have you bidden good-bye to Wetaskiwin-ites who are to make their homes elsewhere? Let The Times know.

Use The Times Want Ad. columns.

A priest offered twenty-five cents to the boy who could tell him who was the greatest man in history.
"Christopher Columbus," answered the Italian boy.
"George Washington," answered the American lad.
"St. Patrick," shouted the Jewish boy.
"The quarter is yours," said the priest, "but why did you say St. Patrick?"
"Right down in my heart I knew it was Moses," said the Jewish boy, "but business is business."
Fat lady: "Charlie said my dancing reminded him of a post office. What did he mean?"
Skinny man: "You stamp all over."
